

# Alex Morgan

Full Stack Developer

Anywhere, Earth   [hello@example.com](mailto:hello@example.com)   [github.com/octocat](https://github.com/octocat)   [LinkedIn](#)   [example.com](https://example.com)

## SUMMARY

Hi, I'm Alex, a full-stack developer who enjoys building products that pair clean interfaces with solid, scalable backends.

I work mostly with TypeScript, React, Next.js, Node.js and PostgreSQL, and I like taking an idea from a rough sketch all the way to a deployed product.

## EXPERIENCE

- Senior Full Stack Developer · Acme Corp

2023 – Present

Sample entry. Lead a small team building customer-facing web products, from architecture and APIs to CI/CD and performance budgets.
- Full Stack Developer · Globex

2020 – 2023

Sample entry. Built and shipped internal tools and a public dashboard used by thousands of people every week.

## SELECTED PROJECTS

- Northwind Dashboard

2026

A sample analytics dashboard: real-time charts, role-based access and CSV export, built as a fast single-page app on a typed API.

React · TypeScript · Node.js · PostgreSQL
- Pocket Budget

2025

A sample personal-finance app that works offline first: log spending in seconds and sync when a connection returns.

React Native · SQLite · TypeScript
- Plainfile CLI

2025

A sample command-line tool that keeps folders of plain text files in sync, with conflict resolution and a dry-run mode.

Node.js · CLI · TypeScript

## SKILLS

|                |                                             |
|----------------|---------------------------------------------|
| Languages      | TypeScript, JavaScript, Python, SQL         |
| Frontend       | React, Next.js, Tailwind CSS, Framer Motion |
| Backend        | Node.js, PostgreSQL, Redis, GraphQL, REST   |
| DevOps & Cloud | Docker, GitHub Actions, Vercel, Netlify     |
| Tools          | Git, Figma, Playwright, Vitest              |
